is jesus the christ if so what does that mean how can a human person be a cosmic principle don macgregor hopes to make christianity more relevant for the twenty first century in his reflection into the difference between the universal or cosmic christ principle and the human figure of jesus of nazareth he takes a deep dive into reincarnation mysticism and the message of transformation that jesus taught contrasting that with the transaction that the institutional church taught this is the third book in the wisdom series in which the author seeks to reframe christianity within a larger sphere that of the perennial philosophy

my book how do we view love through jesus christ and the holy spirit explains that we need to show action when we love through jesus christ

as christians become more engaged with the reality of religious pluralism many find themselves torn between two worthy goals to be faithful to the lordship of jesus christ and to be open generously to possible truths found in other religions in the first and the last george sumner offers a constructive way forward showing how christian theology can bring these two goals together at stake in the current debate over religious pluralism is the issue not only of evangelism and mission but also of the christian claim to the uniqueness of jesus christ sumner leads readers through the challenges and possibilities raised by this debate and he outlines a distinctive new method for assessing from a christian standpoint the claims and practices of

neighboring faiths the crux of sumner's approach is what he calls final primacy a position that 1 sets non christian religions in relation to the unique mediating role of jesus christ and 2 relates the truth claims of other religions to the overall scheme of grace sumner goes on to demonstrate the effectiveness of this position in practical terms using final primacy as a frame of reference for a number of twentieth century theologies namely those of barth rahner and pannenberg and as a way of examining both indian and african theologies against their respective backgrounds of hinduism and tribal practices additionally the book serves as an excellent introduction to the history of interfaith thought sumner both surveys how religious pluralism has been handled in the past and illustrates how the position of final primacy at once redefines and promotes its most pressing issue interreligious dialogue a provocative approach to religious pluralism sure to stir widespread discussion the first and the last provides valuable reading for anyone interested in theology interfaith dialogue and missions

who is jesus christ this question continues to arouse much debate in current theological discussion karl barth one of the greatest theologians of this century has made what is perhaps the most significant contribution to the dialogue barth believed that the teaching of traditional christology suffered from a too strict separation of the different aspects of christ's person and work christ cannot be seen in and of himself as an independent member of the trinity rather he must be understood in perspective in the totality of his being and work in relation to the father the universe and humanity for barth this way of understanding jesus is centered in the cross seen in the perspective of the resurrection the cross casts its light back on the whole life and activity of jesus and by the holy spirit reaches forward in the church to the parousia all theology therefore must find its focus and center in jesus it must be christological publisher

in his second book james dunn pursues the question raised by his earlier study baptism in the holy spirit granted that religious experience is the core of religion what were the religious experiences which marked out christianity in its years of infancy what is or was experience of the spirit what was jesus experience of god these are some of the questions asked and answered in successive chapters the author looks at jesus experience of god in terms of sonship and spirit and asks was jesus a charismatic in part ii the resurrection appearances and the account of pentecost are subjected to careful scrutiny and the attempt is made to penetrate through the narrative of acts to

uncover the vitality of the earliest communities part iii begins with an examination of paul s understanding of charisma and charismata goes on to elaborate his concept of charismatic community and concludes by investigating paul s understanding of the distinctiveness of christian experience as experience of christ the book as a whole offers solutions to several standing problems of nt research and demonstrates how light can be shed on nt theology by a sympathetic study of the religious experience behind it publisher
