a comprehensive dictionary of the meaning and derivation of scientific bird names

a marvelously illustrated a to z compendium of bird names from around the globe the bird name book is an alphabetical reference book on the origins and meanings of common group bird names from accentor to zeledonia a cornucopia of engaging facts and anecdotes this superbly researched compendium presents a wealth of incisive entries alongside stunning photos by the author and beautiful historic prints and watercolors myers provides brief biographies of prominent figures in ornithology such as john gould john latham alfred newton and robert ridgway and goes on to describe the etymological history of every common group bird name found in standardized english she interweaves the stories behind the names with quotes from publications dating back to the 1400s illuminating the shared evolution of language and our relationships with birds and rooting the names in the history of ornithological discovery whether you are a well traveled birder or have ever wondered how the birds in your backyard got their names the bird name book is an ideal companion

distinguished linguistics scholar anatoly liberman set out the frame for this volume in an analytic dictionary of english etymology here liberman s landmark scholarship lay the groundwork for his forthcoming multivolume analytic dictionary of the english language a bibliography of english etymology is a broadly conceptualized reference tool that provides source materials for etymological research for each word s etymology there is a bibliographic entry that lists the word origin s primary sources specifically where it was first found in use featuring the history of more than 13 000 english words their cognates and their foreign antonyms this is a full fledged compendium of resources indispensable to any scholar of word origins

this dictionary gives the derivation and meaning of all valid scientific bird names many fascinating details emerge from the author s meticulous work in tracking down obscure meanings a short but very informative introduction explains the history and purposes of scientific nomenclature and the basic features of latin in this context it also discusses the ways in which birds have been named for their appearance for a person or place or for some aspect of

their habitat behaviour food or voice or with reference to their native language name there is a full bibliography at the end of the volume each part of the name is defined separately so that passer domesticus for example will not be found as such but both passer and domesticus are explained in their respective alphabetical places the usefulness of the dictionary will thus not be affected by future taxonomic revisions of generic or species names about 8500 names are defined including a selection of historical synonyms this book will find a permanent place on every ornithologist's shelf and will be a valuable reference source for everyone whose work or interests bring them into contact with birds

explains the etymological origins of birds english common names along with scientific counterparts

this entertaining and informative guide explains the meanings of bird names many of which have fascinating origins and stories behind them the universal system of scientific names based largely on greek and latin is used in all good bird books and assists birdwatchers around the world in figuring out exactly what they are looking at while some of the names are fairly self explanatory such as troglodytes for wren meaning cave dweller others are more mysterious caprimulgus for nightjar for example meaning goat sucker covering hundreds of bird species from around the world birds what's in a name includes explanations of hundreds of scientific names and common names as well as delivering a wealth of other facts and trivia relating to the species concerned in short it's the most readable and entertaining book on the subject available anywhere anas platyrhynchos mallard the duck with the flat beak ixobrychus minutus little bittern small reed bellower strigops habroptilus kakapo a bird that looks like an owl with soft feathers ptilonorhynchus violaceus satin bowerbird violet bird with a feathered bill tachybaptus ruficollis little grebe
