this volume the brazilian studies in the philosophy and history of science is the first attempt to present to a general audience

works from brazil on this subject the included papers are original covering a remarkable number of relevant topics of philosophy of science logic and on the history of science the brazilian community has increased in the last years in quantity and in quality of the works most of them being published in respectable international journals on the subject the chapters of this volume are forwarded by a general introduction which aims to sketch not only the contents of the chapters but it is conceived as a historical and conceptual guide to the development of the field in brazil the introduction intends to be useful to the reader and not only to the specialist helping them to evaluate the increase in production of this country within the international context

education in brazil has changed intensely over the last several years access to basic education is nearly universal secondary education has been expanding very rapidly and so too has higher education at both the undergraduate and graduate levels however serious issues remain related to quality equity and inappropriate use of resources some of these problems are related to the fact that brazil started to develop its education institutions very late and did not build strong teaching and academic professions that could provide the necessary support for education policies committed to equity quality and efficiency this book written by leading experts is the first english language text to provide a comprehensive analysis of the challenges facing brazilian education at all levels including issues such as the quality of basic education the establishment of standards for higher education the experiences of technical and vocational schools teacher education regulation and financing of public and private higher education and the growing role of graduate education and research

the education in brazil an international perspective report was developed drawing on internationally comparative data on education in brazil in particular the extensive range of data collected by the oecd through its surveys the experiences of other countries and how they have tackled challenges similar to those now faced by brazil along with the insights from consultations with key national experts also inform the analysis

as brazil is massively investing in a scale up of in vocational education and training vet through the national flagship program pronatec this report assesses institutions and policies in vet taking an in depth critical view of upcoming opportunities it shares international best practices on selected operational issues identified as strategic bottlenecks for the delivery of technical education the report explores multiple sources of information including a desk review of existing reports and papers inputs data provided by the ministry of education and interviews with multiple stakeholders and practitioners at the federal and state level the report highlights the need of promoting a better alignment between the supply and demand of skills at the sub national level and of promoting better a solid monitoring and evaluation system including the monitoring of student learning and of the trajectories into the labor market or into higher educational degrees issues of student career guidance and teacher quality also emerge as areas of strategic importance to the brazilian vet system in the years ahead we conclude with specific policy recommendations for pronatec

an evaluation of brazil s educational policies and the advances in basic education over the past 15 years as well as recommendations for future advances

this volume combines an analysis of pisa with a description of the policies and practices of those education systems that are close to the top or advancing rapidly in order to offer insights for policy in the united states

this volume the brazilian studies in the philosophy and history of science is the first attempt to present to a general audience works from brazil on this subject the included papers are original covering a remarkable number of relevant topics of philosophy of science logic and on the history of science the brazilian community has increased in the last years in quantity and in quality of the works most of them being published in respectable international journals on the subject the chapters of this volume are forwarded by a general introduction which aims to sketch not only the contents of the chapters but it is conceived as a historical and conceptual guide to the development of the field in brazil the introduction intends to be useful to the reader and not only to the specialist helping them to evaluate the increase in production of this country within the international context

this report concentrates on the specific educational phenomenon of popular education in brazil it highlights the social context and the frequent political controversies that surround it the first section depicts the popular education movement with respect to its

self image part ii describes the societal groups involved part iii discusses in an historical and goal related sequence the different forms through which popular education advanced some important data about brazil s educational system in general are offered in part iv the fifth section is comprised of three subchapters that attempt a differentiation between fundamentalist and realist viewpoints the key controversies of the movement are discussed collaboration with the state the type of teacher required and nondirectiveness versus manipulation the last section sums up the findings and asks if brazil s popular education endeavor comprises the elements of a new pedagogy a glossary supplementary tables and a bibliography are attached ylb
