addresses some of the main themes of the study of egypt during the 19th and 20th centuries in a combination of case studies and discursive chapters the status of egypt as an important example of traditional orientalist scholarship and as an ancient model of imperialism itself is examined

as the worship of the episcopal church approaches a new period of renewal and innovation important questions must be explored about what exactly does constitute an anglican approach to liturgy simply doing what we have always done or coming up with new and exciting ideas will not suffice to nourish the people of god it seems to be an appropriate time for a reclamation of the work and ideals of percy dearmer noted liturgical scholar from the late nineteenth

and early twentieth century though his work is often dismissed as british museum religion the truth is that his english use approach to liturgy contributed significantly to the growing liturgical movement in the church of england further the ideals of his work often misunderstood persist as worthwhile ideals in contemporary worship offering a correction perhaps to some of our own practices authentically anglican liturgy is still a goal worth pursuing it is just a more difficult one than the setting up of riddle posts and the wearing of amices by engaging in a careful reading of dearmer s work and identifying the nine ideals he used for anglican liturgy we will find our own approaches to worship enlivened and invited into greater truth faithfulness and beauty
