this second edition contains a 30 page afterword with additional material on the alleged hijackers controlled demolition of the

wtc sibel edmonds and the 9 11 commission plus a discussion of whether standard operating procedures had been changed in june 2001 from a skeptical vantage point but also taking to heart the classic idea that those who benefit from a crime ought to at least be investigated griffin an eminent philosopher and theologian brings together an account of the national tragedy that is far more logical than the one we've been asked to believe gathering stories from the mainstream press reports from other countries the work of other researchers and the contradictory words of members of the bush administration themselves griffin presents a case that leaves very little doubt that the attacks of 9 11 need to be further investigated the disturbing questions emerge from every part of the story from every angle until it is impossible not to seriously doubt the official story and suspect its architects of enormous deception long a teacher of ethics and systematic theology griffin writes with compelling and passionate logic urging readers to draw their own conclusions from the evidence outlined the new pearl harbor rings with the conviction that it is possible even today to search for the truth it is a stirring call that we demand a real investigation into what happened on 9 11

by the end of the american war in vietnam the coastal province of phú yên was one of the least secure provinces in the republic of vietnam it was also a prominent target of the american strategy of pacification an effort purportedly separate and distinct from conventional warfare to win the hearts and minds of the vietnamese in robert j thompson iii's analysis the consistent and consistently unsuccessful struggle to place phú yên under saigon's banner makes the province particularly fertile ground for studying how the americans advanced pacification and why this effort ultimately failed in march 1970 a disastrous military engagement began in phú yên revealing the enemy's continued presence after more than three years of pacification clear hold and destroy provides a fresh perspective on the war across multiple levels from those making and implementing policy to those affected by it most pointedly thompson contends that pacification far from existing apart from conventional warfare actually depended on conventional military forces for its application his study reaches back into phú yên's storied history with

pacification before and during the french colonial period then focuses on the province from the onset of the american war in 1965 to its conclusion in 1975 a sharply focused fine grained analysis of one critical province during the vietnam war thompson s work demonstrates how pacification is better understood as the foundation of u s fighting in vietnam
