improving the safety of complex human machine systems is a continuing challenge available information concerning system failures which are usually called accidents incidents or mishaps regularly points to human operators as the brittle elements the need for greater understanding of operator behavior is recognized in a variety of technologically sophisticated system for example industrial processes health care public utilities and national defense but nowhere is it more obvious than in the aftermath of a commercial airline accident following the november 1979 crash of an air new zealand dc 10 which killed 257 people in antarctica united press international noted that the ten worst disasters in aviation history have all occurred since october 1972 although the degree of operator culpability varies the fact that the five deadliest accidents have occurred since march 1974 is particularly significant at least one commercial airliner was completely destroyed and over 200 people were killed in each of the five crashes wide body jetliners either boeing 747 or mcdonnell douglas dc 10 aircraft were involved in each instance the sheer size of such

vehicles portends grave consequences in case of system failure be it human mechanical or a combination of the two

the main aim of sop is to educate the employees and customers about the right way of executing a certain process sops will be present everywhere within the organization no matter how big or small it may be larger organizations would have more sops it is a good practice to bring the culture of documenting routine tasks in the organization so that knowledge is not limited to a single resource or a team with proper documentation in place employees can simply refer to an sop for required information

every medical facility tries to provide best possible services to its customers standard operating procedures sop of various departments together constitute a hospital manual which significantly determines the performance of a hospital in practical terms thus every hospital must prepare sop in a way that it ensures consistency in working of varied departments on the one hand and enables to obtain best results in a cost effective manner on the other the present book will prove a useful aid in preparing sops it is written keeping in mind the problems usually faced by middle and small size hospitals during the first few years of their operation it not only lays down the basic duties and responsibilities of staff members procedures and policies but also provides many sample stationery formats applicable to various departments the standards laid down here are most common and easy to adopt by hospitals owing to their flexibility which enables their modification so as to suit one s needs be it any department opd ipd emergency investigation administrative accounts etc this book will be particularly beneficial to all such persons who are involved in managing middle and small sized hospitals and lack in sufficient experience in handling day to day performance while for the established hospitals the book would serve as a valuable guide in the management of affairs of their various departments in a rather more efficient and cost effective manner in addition it is useful for the students of mha dha and mba ha

writing standard operating procedures can be problematic i recently was involved in writing operating procedures for 30 machines the process was more difficult than it

needed to there were a number of interested parties each who wanted input into the sop each dept seemed to have its own silo or empire after completing the task i looked for existing publications on how to write sop and what should be in them there were none that i could find useful i started from the ground and determined what should be in an sop safety record keeping start up monitoring product safety quality shutdown cleaning inspection while cleaning preventative maintenance predictive maintenance theory error messages trouble shooting training and assessment plans and training simulators from there it seemed logical to adopt a tree structure or scaffolding this would allow any medium type to be included into and sop it would allow existing documents to be referred to avoid the need to re write anything just to put it into the sop this structure allowed the use of a number of existing technologies for writing it also linked into the unit standards for training all the various silos from other dept can be incorporated because we link to the various documents fro each dept training plans and job training cards can also be very easily made the book is aimed at those who wish to learn or improve how to write standard operating pro

this instruction provides small businesses across the globe with an approach to generating standard operating procedures sop standard operating procedures are used to nail down a process so it can be repeated consistently always yielding the intended result for the customer sops are also a key component to a highly reliable mindful and safe work culture

pharmaceutical biotechnology and life sciences companies rely on standard operating procedures sops to ensure the quality and safety of their products and services but in many cases these documents themselves lack quality you don t need to spend months creating a solid set of documented operating procedures for your organization and you don t need to spend thousands of dollars hiring professionals to write procedures this newest addition to the practical office guide series provides you with a blueprint to get you started today toward the creation of a set of high quality operating procedures
