justice humanity and social toleration develops the concept of normative justice as setting human affairs right in accordance with the principles of human rights human goods and human bonds defending the ideas of global justice and modernity professor xunwu chen explores social toleration and democracy as embodiments of normative justice in our time the approach of this text is groundbreaking by giving equal emphasis to normative justice as distributive justice and corrective justice chen shifts the paradigm for a new view on global justice the discourse on global justice is furthered by the context of eastern western dialogues this thoughtful and groundbreaking work is a stimulating work for professionals and both graduate and undergraduate students

every day we interact with thousands of consumer products we not only expect them to perform their functions safely reliably and efficiently but also to do it so seamlessly that we don't even think about it however with the many factors involved in consumer product design from the application of human factors and ergonomics principles to reducing risks of malfunction and the total life cycle cost well the process just seems to get more complex edited by well known and well respected experts the two volumes of handbook of human factors and ergonomics in consumer product design simplify this process the first volume human factors and ergonomics in consumer product design methods and techniques outlines the how to incorporate human factors and ergonomics hfe principles and knowledge into the design of consumer products in a variety of applications it discusses the user

centered design process starting with how mental workload affects every day interactions with consumer products and what lessons may be applied to product design the book then highlights the ever increasing role of information technology including digital imaging video and other media and virtual reality applications in consumer product design it also explores user centered aspect of consumer product development with discussions of user centered vs task based approach articulation and assessment of user requirements and needs interaction with design models and eco design with contributions from a team of researchers from 21 countries the book covers the current state of the art methods and techniques of product ergonomics it provides an increased knowledge of how to apply the hfe principles that ultimately leads to better product design

bringing varied perspectives on problems related to reference from philosophers of language and linguists this edited collection initiates a dialogue between the two fields the contributors to this volume both philosophers and linguists answer four questions what is reference is there reference to the abstract is there sentential reference is there reference to time each chapter is followed by two responses a linguist will comment on what the philosopher said and how it can impact the research made in the related linguistic field while a philosopher will comment on what the linguist said in a similar sort of fashion edited by ana clara polakof linguistic and philosophical perspectives about reference highlights ways that linguistics and philosophy of language are currently closely connected and can mutually benefit from sustained interaction
